POLICY OF VITAL SPEECHES

The publishers of Vital Speeches believe that the important addresses of the recognized leaders of public opinion constitute the best expressions of contemporary thought in America, and that it is extremely important for the welfare of the nation that these speeches be permanently recorded and disseminated. The publishers have no axe to grind. Vital Speeches will be found authentic and constructive.

It is the policy of the publishers to cover both sides of public questions and to print all speeches in full. Where it is necessary to condense a speech for reasons of unusual length or the use of extraneous matter, it will be so stated when printing. They feel that it is only in the unedited and unexpurgated speech that the reader can best obtain the views of the speaker.

This material gives the reader the best thought of the best minds on current national problems. It also offers the student of public speaking examples of the effective speech of today of those who have attained leadership in the fields of economics, politics, education, sociology, government, criminology, finance, business, taxation, health, law, labor, etc. Thus the student of public speaking obtains the finest text-book material with a sound knowledge of public questions.

Subscribers are urged to call the Editor's attention to any speeches which have impressed them as outstanding so that copies may be secured for review.

Significance of the Spoken Word

The importance of the SPOKEN WORD is greater today than at any time in history. Leaders in all fields of endeavor are continually being requested to address associates, large audiences or to speak over the radio. To present and expound their ideas, plans and accomplishments in a forceful, understandable and interesting manner they must be proficient public speakers.

VITAL SPEECHES, by presenting the speeches of national leaders on the serious problems of the day, offers the student examples of the effective speech of today's moulders of public opinion and affords the opportunity to study, absorb and compare the ideas and thoughts set forth. The student will soon recognize the importance of the SPOKEN WORD and the necessity for fundamental training in public speaking if he hopes to attain a prominent position in any walk of life.
